

BRING THE POWER OF SPEAK TO YOUR CAMPUS

SPEAK: Higher Ed is a unique and impactful program designed specifically for colleges and universities. We bring a SPEAK pop-up event to your campus, where we direct and produce the entire event. Our team works closely with your institution to procure 10 students and/or faculty to speak at the event, creating a powerful and engaging experience for your campus community, and bringing notoriety to your school.

Why Choose SPEAK: Higher Ed?

At SPEAK, we believe in the power of storytelling and the impact it can have on individuals and communities. Our Higher Ed program allows your campus to bring in diverse voices and perspectives, creating a platform for meaningful conversations and connections. Our team handles all aspects of the event, making it a hassle-free experience for your institution.

How Does It Work?

Bringing SPEAK Higher Ed to your campus is simple. Our team will work with you to determine the best date and campus location for the event. We will then handle all directing and producing logistics including event planning, coaching speakers, managing the production, and emceeing. Contact us today to learn more about our Higher Ed program and how we can work together to create a meaningful and impactful event for your institution.
